

Welcome, Alexei!

We pull in avatars from Gravatar. You can update yours [here!](#)

Your hosts (so far)

Create a dashboard

Create a monitor

Invite teammates

Install an integration

You have **1** host reporting data to Datadog.

See your hosts in more detail in your [Expanded host map](#).

Get a summary of basic metrics at your [System Overview dashboard](#).

Updated < 1 min ago

You have **1** integration already installed and **1** waiting from your stack (we remembered you mentioned these earlier).

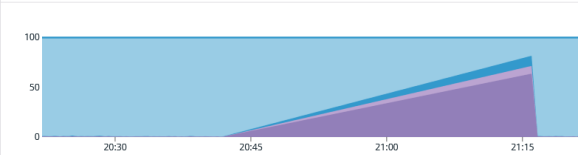

[See All 400+ Integrations](#)
